Prosthodontist & Oral Implantologist

The Department of Prosthodontics along with the Department of Periodontology will be conducting the Prosthetic Module (Module II) of the “Basic Implant Proficiency Course – 2026” in association with Osstem Implant India Pvt Ltd.

This module is designed to provide comprehensive knowledge and hands-on training in implant prosthodontics through didactic lectures, live demonstrations, case discussions, and practical sessions.

The speaker for the Prosthetic Module is Dr. Santosh Dixit, M.D.S., Prosthodontist & Implantologist, from Pune, will deliver guest lectures on various aspects of implant prosthetics. The academic session will be followed by a live prosthetic demonstration on a patient by the mentor.

The program will further include extensive training for the participants in prosthetic treatment planning, impression procedures, prosthetic component selection, occlusal considerations, and implant-supported prosthetic rehabilitation, thereby enhancing their clinical proficiency in implant dentistry.
